MOGUL X OBSERVER X SHOTTLE
A2/A2

- Australian daughters continue to impress across the country
- #1 bull in the breed at +385 BPI with milking dtrs (#2 TWI and #3 HWI)
- Rare combination of ASI (#2 in breed) and heat tolerance at +102
- Profitable cows farmers ask for: 111 Survival, 110 Fertility and 145 Cell Count

“We are milking a total of 138 MOOKIE daughters. They have been trouble-free cows that go largely unnoticed, until you see them full of milk; they do have great udders. A total of 67 have calved already for a second time. As a group they peaked at 48 litres this time around, and completed a 305 day 2 year old lactation of 10,530 litres.”

– Rose Philipzen, Moxey Farms, Australia
